KZN MEC for Human Settlement Ravi Pillay has lashed out at the unknown killers of Hibiscus Coast Municipality ANC chief whip Wandile Mkhize, and youth cadre Nhlakani-pho Shabane. Addressing the KwaMavundla Tribal authority residents when he presented them with houses, he said the murderers were taking the country backwards.

Pillay said last week it was a sad moment during the month of July when they buried one of their own young leaders who was killed within the area. "A lot is taken to groom people into leadership roles. Now bad people destroy all that. My appeal to you is that this should never be allowed to happen again. We are now building our nation. But there are those who want to let us down" said Pillay.

Mkhize and Shabane were gunned down last month at Manaba. Mkhize died on the scene and Shabane died in hospital three weeks later.
